### What are eyelashes extension?

Not to be confused with the self-stick strip falsies or individual clusters of lashes that are for a single event accessory, these semi-permanent, synthetic extensions are glued one by one onto the natural lash (not the skin) by using a specially formulated glue that last 2-4 weeks. Single synthetic eyelashes are applied to your own natural eyelash to achieve a beautiful full luscious and long set of lashes that are natural and you wont even know they are there.

## Permanent Makeup

Permanent makeup is a fantastic choice for people who can't wear traditional cosmetics due to allergies and skin sensitivities; People who are active, who want to look their best for sports activities such as swimming, hiking, biking, tennis, aerobics and those who don't want to worry about reapplying cosmetics. Clients who meet minimum age requirements and have the ability to heal properly from minor wounds can benefit from the freeing benefits of permanent cosmetics.

### Does it hurt?

All forms of permanent makeup can save valuable time from not having to apply topical makeup. Any small amount of discomfort a person feels from having the tattoo work done will soon be forgotten with your fantastic results. In the busy life of the multi-tasking woman and man, this is a wonderful benefit.
