

## WAXING

*If you are looking to remove any unwanted hair from your face or anywhere on your body, waxing could be the right choice for you. It leaves skin smooth and without the bumps and cuts you often get from shaving. Please let us know ahead of time if you are using Retin-A, Acutane, Acne prescriptions or blood thinners as they are contraindications for waxing. We want to help you make the safest choice and always keep your health in mind before we begin.*

## TINTING

*Brows tinting is a fantastic service to compliment your brows wax. It is especially effective for clients with blonde or lighter hair. You also like our lash tinting, which takes away the hassle of mascara. Be sure to not wear your brows makeup or mascara before your service. This service truly brings out the shine in your eyes, and makes everyone take notice!*

Eyelashes Tinting.....\$20

## THREADING

*Threading is an ancient method of hair removal. This secret of smooth and easy hair removal began in India and the Middle East. This ancient hair removal practice, is perfect for our friends with sensitive skin. It is also a great treatment for those of us taking Retin-A or Acutane. We tend to hear clients say this procedure is less painful and less irritating than other hair removal methods.*
